

26TH ANNIVERSARY

September 5th, 2008 is the 26th anniversary of the kidnapping of Johnny Gosch. Everyone in Des Moines thought it could never happen again, however, two more boys... Eugene Martin 1984 & Marc Allen 1986 were kidnapped. With these three cases still unresolved why is there no public outcry for justice? What these people did to Noreen and the other families they could at any time to anyone else. Kidnapping and covering up their horrific crimes with the assistance of the police.

People should demand answers to the following:

How did this happen three times in one city?

Why were the police allowed to "look the other way"?

Why is there no accountability for police who deliberately mishandle cases?

Do we have to wait until all the "old perps" die before the remaining truth is revealed?

One "old perp" did share information with Noreen before he died, it led to other information being discovered. But there is still more being shrouded within the ranks of these pedos.

Noreen has been working steadily for 26 years, not only on her son but also for the many other children who are victims. She also tries to rally other parents to join with her in this fight, unfortunately, not many are willing to join. It requires sticking one's neck out there with the risk of it being chopped off with public scrutiny and many parents are too heart broken when they lose their child to fight.

We know Johnny checks this site regularly and want him to know he is not forgotten.

On behalf of Johnny's Mom.....

Luke J
